I really miss the balloon chipper . Do they make an appearance in the next version of the game or their kicking to limit them? I really want them to get rid of them in the game please get rid of them. You can also please add the multiplayer mode I really liked in TD5. It's kind of annoying switching from 6 to 5 just to multiplayer games. There is also perhaps a suggestion for all towers since 3 ways to branch out your tower can make the selection disappear after you make 1 or 2 upgrades in all 3 choices??? It's kind of annoying to see what you want and 2 other choices you really want but all your own in separate areas. I want to choose all 3 things to upgrade. It's nice to have. It always seemed to me to play Ninja Kiwi Tradition to upgrade 2 things on each branch and then dich one and go with another one. Now you guys kind of break it down in a way since it should fall into the same category with your current 3 upgrade branches to choose from. Edek, you guys are thinking that these are the things I want to see or hopefully see in the near future. You can also add kids more challenges please probably like 5 challenges per day???? That would be fun may also increase sales for Oh, boy, I'm back with another review. It must be bad, right? No, after I stopped a bit brat about these heroes and actually decided to start trying to get them (I'll get them all from now), and the grind was frustrating let's just point out that. Not that I enjoy playing the game, a good round of 100 runs is fun every now and then, but just to the heroes, it was a frustrating mill. I enjoy some of them as a matter of fact and hate myself for complaining and not trying earlier. But the skin was extremely unnecessary. So I'll never get them again, so what am I complaining about? Anyway the next issue, when is there to return the engineer, Bloomchipper, and The Dartling Rifle? Seriously, we still have fewer towers there than BTd5, and heroes don't apply to that category since they are their own system. Plus with all the achievement on your list that won 10 games using support towers only seems undeveaveable (s, did that) and it should be Angie Reveal and Chipper would be in support class. To add along you want to return Odyssey modes or two players in this. All I ask is that there needs to be something more added to the list rather than single solos and races (compete, enjoy it as much as collaboration). Or make something new and exciting. Concluding, love play is still a buyer as a day but enjoy seeing some things back and some new things added. TLDR: The game is great but the cash is twice as expensive and what it says is this crazy game doesn't do fun to play. I did it when it first came out, so it had not played in a few months but picked it up recently and I wasn't able to get off it. I came back and had changed a lot, there were 2 new champions, some new skins, buffs and nerfs, and overall it felt much better to play. Now I say it all but why did I make it just 4 stars? I dont like monkey farm changes . This underwhelming waaaaaayy compared to btd5. Yes I guess I btd5 it was a bit of an operation, but it was cut to maybe 30% of what it used to be that way too. Especially the fact that double cash mode doesn't work on anything but popping bloons, unlike btd5. Now I have to lvl 83, chimpanzee medals on all easy maps, all without double cash. I was a little bored and decided why not mess around a bit and see how much money I could get by round 100 or 150 etc but then I got into a game and realized I was still getting 375 per box of bananas (knowledge of the monkey with 4,2.0 banana farms) and now I regret spending \$18 on something that doesn't do what it says. The description to buy is twice as much as all the cash earned in the forever game or something along those lines, like at least tell us it doesn't count towards farms. The cash X2 is currently without working with expensive farms so at least link what it will and won't do.
